2 Minutes

IN

Heaven

Instructions

1

One spouse rolls the die to see which piece of clothing the other spouse takes off first. Whatever number the die lands on is the piece of clothing that is removed. The catch is, you can only remove one piece of clothing at a time. So if the dice lands on the number that removes your bra, remove your shirt, take off your bra and put your shirt back on.

2

The other spouse rolls the die to see what piece of clothing the spouse will take off. The same rules apply to each player, you can only take off one piece of clothing.

3

After both spouses have rolled and each has removed one piece of clothing, set a timer for two minutes of play time! During this time, kissing, touching, and anything else that comes to mind other than actually making love.

4

At the end of two minutes all play MUST stop and both spouses get to roll again. If one spouse rolls a number that has already been played than that turn is skipped and the next person gets roll.

5

Continue play by rolling the die and having two minutes of play time after each set until no more clothing is left to take off. When no more clothes are left, play one more round of two minutes and remember anything goes except making love. When the last two minutes are up, the game is over! **Anything goes!!!**
